13 October: PLASTIC POLLUTION IN THE OCEANS

David de Rothschild **Dr Simon Boxall** **Peter Davis** **David Shukman**

Our throw away society is polluting large areas of the world's oceans with plastics, threatening marine life and food chains. How did it get there? What are the practical solutions? Is it time to re-evaluate waste as a resource?

Thought-provoking talks on geographical issues

Welcome to the discussion series run by the **Royal Geographical Society** that aims to improve public understanding of, and engagement with, some of the **big issues** likely to affect our lives and society in the coming years.

The series helps people make their own informed decisions and judgements on the most important challenges of the 21st century.

The talks are held at the Society's headquarters in South Kensington, London.

Gateway Projects, waste, Thames Gateway,
water footprint, Martha Lane Fox,
COP15, food, environment, recycling,
tsunami, **retirement jobs**,
protectionism, globalisation, Asia,
